Notes:

- Paint samples used on this page have been derived from actual photographs. Although the pictorial representation may be accurate, the printing process may alter the appearance in this publication. It is the recommendation of Beacon Products to obtain painted color samples prior to final color selection.
- All powdercoat finishes have a light texture and "6-8" gloss level as defined by Sherwin-Williams.
- All powder coat finishes supplied by Beacon Products are been specifically designed for outdoor use and have a minimum rating of AAMA 2604 as defined by the American Architectural Metals Association.
